2023 Paid Summer Internships in IT at John Hopkins

We are happy to announce 12 paid internship opportunities in IT@JH this summer! Please forward this email if you know someone who would be qualified and interested in any of the opportunities listed below. We will also send notice out to local HBCUs and other colleges. We anticipate a high number of applications for these positions, so those who are interested should apply soon using the links below.

Our internships provide individuals with no or limited work experience an opportunity to develop valuable work skills and to strengthen their resumes. They also help us build a talent pipeline for future full-time vacancies. Help us spread the word!

Req #	Working Title	Hiring Manager	Position Type
108481	IT Tech Hub Assistant (2 positions)	Michael Kulik	seasonal
108495	TIC Software Development Assistant	Robert Kuryk	as-needed
